Advancing CMV Safety Research

The CMV Safety Summit fosters collaboration across government, industry, law enforcement, and research, uniting stakeholders dedicated to commercial motor vehicle safety. The event promotes innovation and bridges new partnerships to prevent CMV crashes and improve safety.

The Southeastern CMV Safety Summit will focus on FMCSA's national priority topics, crash prevention technologies, new research, and innovative solutions.

Who Attends the CMV Safety Summit?

- Trucking Association Members
- University Researchers
- Energy Industry Professionals
- Fleet Managers
- Other Safety Stakeholders
